

THE STANDARD RESPONSE PROTOCOL & THE STANDARD REUNIFICATION METHOD

Half-Day Seminar

An Introduction to the Standard Response Protocol and the Standard Reunification Method

ABOUT THE STANDARD RESPONSE PROTOCOL AND STANDARD REUNIFICATION METHOD

The Standard Response Protocol (SRP) and Standard Reunification Method (SRM) are used for crisis response and post-crisis reunification in more than 78,000 schools, districts, departments, agencies, organizations and communities around the world.

ABOUT THE SEMINAR

The SRP and SRM Half-Day Seminar will introduce participants to the history, concepts and functionality of the SRP and SRM and how to implement the programs in their organizations.

Participants will walk away from the training with a deep understanding of how the SRP provides a proven, action-based enhancement to all-hazards school safety planning. After learning about the five actions of the SRP, and their associated directives, participants will be able to implement the program and enhance the safety plans of their school/district. Additionally, participants will receive an overview of the SRM, explore the roles involved and gain an understanding of how and why the SRM should be used in the aftermath of a crisis.

WHO SHOULD ATTEND

Educators, Administrators, School and District Safety Teams, Campus Supervisors, Law Enforcement, Fire/EMS, Emergency Managers, Victim Advocates
