One critical aspect of crisis response is accountable reunification of students with their parents or guardians in the event a controlled release is necessary. The Standard Reunification Method provides school and district safety teams proven methods for planning, practicing and achieving a successful reunification. A predetermined, practiced reunification method ensures the reunification process will not further complicate what is probably already a chaotic, anxiety-filled scene. In fact, putting an orderly reunification plan into action will help defuse emotion escalating at the site.
PEACE
It does not mean to be in a place where there is no noise, trouble, or hard work.
It means to be in the midst of those things and still be calm in your heart.
The Standard Reunification Method - REx
Standard Reunification Method Reunification Exercise

THE “I LOVE U GUYS” FOUNDATION
On September 27th, 2006 a gunman entered Platte Canyon High School in Bailey, Colorado, held seven girls hostage, and ultimately shot and killed Emily Keyes. During the time she was held hostage, Emily sent her parents text messages... “I love you guys” and “I love u guys. k?” Emily's kindness, spirit, fierce joy, and the dignity and grace that followed this tragic event define the core of The “I Love U Guys” Foundation.

MISSION
The “I Love U Guys” Foundation was created to restore and protect the joy of youth through educational programs and positive actions in collaboration with families, schools, communities, organizations, and government entities.

TERMS OF USE
Schools, districts, departments, agencies, and organizations may use these materials, at no cost, under the following conditions:

1. Materials are not re-sold.
2. Notification of use is provided to The “I Love U Guys” Foundation through one of the following:
   2.1. Email notice to srp@iloveuguys.org
   2.2. Notice of Intent
   2.3. Memorandum of Understanding
3. The following modifications to the materials (Posters, handouts, cards) are allowable:
   3.1. Localization

INTRODUCTION

Nearly every day, organizations worldwide experience some kind of incident requiring evacuation from their facilities. These events are often non-violent, such as a gas leak or the heat going out at a building. While at other times, the incident is more nefarious. Whatever the cause, when these events happen at a school or during a school event, school officials must ensure efficient and accurate parent/guardian reunification with their students. The “I Love U Guys” Foundation has developed the Standard Reunification Method (SRM) in response to this need. The Standard Reunification Method provides school and district safety teams with proven methods for planning, practicing, and achieving a successful reunification.

The Standard Reunification Method provides organizations with proven tools and procedures to plan and practice successful reunification regardless of the cause. The purpose of these materials and the resulting classroom training, functional demonstrations, and exercises are to prepare organizations to reunify students with their respective parents or guardians.

Successful planning and implementation will also demand partnerships with all responding agencies involved in crisis response. Keep in mind that this is an evolving process. While there is a smattering of science in these methods, there is undoubtedly more art. Site-specific considerations will impact how these practices can be integrated into organizational safety plans. Successful planning and implementation will also demand partnerships with all responding agencies involved in crisis response.

EVENT TERMINAL LEARNING OBJECTIVE

By the end of the exercise, participants will be able to establish incident command at a reunification site, assign roles, set up location according to the Standard Reunification Method, appropriately reunite students with parents/guardians, and demobilize.
The Standard Reunification Method Training Seminar and corresponding Reunification Exercise (SRM-REx) are intended to prepare emergency response personnel to handle, organize, and reunite individuals who have experienced an emergent event regardless of the cause. We recommend that the training seminar be completed before running the exercise. The seminar and exercise can be performed on back-to-back days or separated as needed due to the scheduling requirements of your organization.

It is recommended to complete both events during the first year of using the SRM. Following initial implementation, we recommend conducting the exercise annually at a minimum, and the training seminar every three years. Alternatively, you can complete both sessions annually if your scheduling permits. These materials are freely available and can be used without any additional training.

If possible, we recommend that your organization’s lead planner attend one of our training events. Your organization’s representative will learn best practices from our instructors and partners, which they can bring back and implement or improve upon. Attendees will be taught the concepts contained in the SRM during the training conducted on Day One and perform several reunifications during the exercise on Day Two.

After completing both sessions, the organization’s reunification team will be equipped to develop organization-specific reunification plans and training events. It will be necessary to conduct several drills using local policy as guidance before the team is ready to perform a reunification under real-world conditions and during an actual event. Keep in mind that these skills are perishable. Maintaining a schedule of refresher drills and other exercises is vital to ensure skills are not lost.

SESSION 1 - OBJECTIVES

By the end of the training session attendees will be able to:

• Describe the Standard Reunification Method and how it interacts with the SRP
• Develop a roster of reunification team members and associated positions for their organization
• Plan the layout of a reunification site from blueprints or other schematics
• Demonstrate the role of each reunification team member’s position

For more information on Session 1 please view our presenter’s guide located at https://iloveuguys.org

</table>
GENERAL INFORMATION

INTRODUCTION
This document is the Standard Reunification Method Reunification Functional Exercise Plan for Operation SRM-REx. An ExPlan is used during operations-based exercises to provide players with the goals and objectives of the exercise, scenario details, and general issues for discussion. Exercises are opportunities for organizations to plan, practice, and validate specific capabilities while also providing opportunities to identify areas of improvement. When we refer to exercises we do not mean an evaluation that is pass/fail, but rather a training event that offers the opportunity for team members to conduct an operation outside of their normal day-to-day responsibilities.

The Reunification Exercise (REx) will give participants the opportunity to participate in and conduct a parent/student reunification. This exercise is composed of multiple operations and will last approximately 8 hours. The event should take place at a reunification site or simulated location. We recommend your jurisdiction conducts one REx per year at a minimum. Ideally, you would be able to conduct more than that.

OBJECTIVES AND CORE CAPABILITIES
The objectives below describe the expected outcomes of the exercise. The objectives are linked to core capabilities, which are distinct for every organization and tied to their mission area. The objectives and aligned core capabilities are guided by elected and appointed officials and selected by the Exercise Planning Team.

PARTICIPANT INFORMATION

PARTICIPANT ROLES AND RESPONSIBILITIES
The term participant encompasses many groups of people, not just those playing in the exercise. Groups of Players involved in the exercise, and their respective roles and responsibilities, are as follows:

FACILITATORS
Facilitators guide exercise play and are responsible for ensuring that participant discussions remain focused on exercise objectives. They are responsible for making sure everyone feels included in the conversation and has the opportunity to participate. They also provide additional information and resolve questions as required.

PLAYERS
Players are personnel who have an active role in discussing their real-world roles and responsibilities related to the issues and hazards presented during the exercise. Players respond to the situation presented based on current plans, policies, and procedures and discuss or initiate actions in response to the simulated emergency.

EVALUATORS
Evaluators are responsible for observing and documenting all key decisions and discussion points made throughout the exercise to identify strengths and areas for improvement related to exercise objectives.

Observers
Observers view selected segments of the exercise from a designated observation area and must remain within the observation area throughout the exercise. Observers do not directly participate in the exercise. However, they may support the development of Player responses during the discussion by asking relevant questions or providing subject matter expertise.

SPECTATORS (UNRULY CROWD)
Spectators will be converted to Observers or provided an opportunity to spectate from a distance.

SUPPORT STAFF
The exercise support staff includes individuals who perform administrative and logistical support tasks during the exercise (e.g., registration, catering, etc.).

MEDIA PERSONNEL
Some media personnel may be present as observers, pending approval by the hosting organization and the Exercise Planning Team.
PLAYER GUIDANCE

PREREQUISITE
Players should have a basic understanding of the Standard Response Protocol (SRP) or similar all-hazards institutional response.

GUIDELINES
The following Player guidelines apply to this exercise:

- This exercise will be held in an open, low-stress, no-fault environment. Varying viewpoints, even disagreements, are expected.
- Players should respond to the scenario using their knowledge of current plans, capabilities, and insights derived from relevant training.
- Players should not focus on the details of the scenario, but rather on the “big picture” concepts depicted. The scenario information is intended only to stimulate conversation and not represent all information that would be available in a real-world incident. Treat the scenario as plausible, assume events occur as presented and accept the scenario information as the full extent of information available to the Players at the time.
- Decisions are not precedent-setting and may not reflect an individual organization’s final position on a given issue. This exercise is an opportunity to discuss and present multiple options and possible solutions. Creativity is encouraged.
- Issue identification is not as valuable as suggestions and recommended actions that could improve recovery efforts. Focus on problem-solving and identification of solutions, whether structural, program-based, or policy-oriented.
- There is no “hidden agenda” nor are there any trick questions.
OVERVIEW
In any exercise, assumptions and artificialities may be necessary to complete play in the time allotted and/or account for logistical limitations. Exercise Players should accept that assumptions and artificialities are in any exercise, and should not allow these considerations to negatively impact their participation.

ASSUMPTIONS
Assumptions constitute the implied factual foundation for the exercise and, as such, are assumed to be present before the exercise starts. The following assumptions apply to the exercise.

No-Fault – The exercise is conducted in a no-fault learning environment wherein capabilities, plans, systems, and processes will be evaluated.

Events – The exercise scenario is plausible, and events occur as they are presented.

Reacting – Exercise simulation contains sufficient detail to allow players to react to information and situations as they are presented as if the simulated incident were real.

Real World – Participating agencies may need to balance exercise play with real-world emergencies. Real-world emergencies take priority.

ARTIFICIALITIES
During this exercise, timelines are not real-time and may be accelerated to move the scenario towards specific injects that drive discussion and planning relevant to core capabilities.
EXERCISE LOGISTICS

SAFETY
Exercise participant safety takes priority over exercise events. The following general requirements apply to the exercise:

Safety Controller is responsible for participant safety; any safety concerns must be immediately reported to the Safety Controller. The Safety Controller has the ability to stop the exercise for any safety reason.

If a scenario encompasses a real-world emergency, the phrase “real-world emergency” will be used to determine the difference between a simulated situation and a real-world emergency.

Anyone who observes a participant who is seriously ill or injured will immediately notify emergency services and the closest controller and, within reason and training, render aid.

WEAPONS POLICY
All participants will follow relevant weapons policies for the jurisdiction the exercise is taking place. Note that law enforcement officers will be participating and may be armed.

SITE ACCESS AND SECURITY
Access to the exercise will be controlled by onsite security. Identity card identification/badged personnel will be required for access to the exercise site.
POST EXERCISE AND EVALUATION ACTIVITIES

DEBRIEFINGS
Post-exercise debriefings (commonly known as Hot Washes) aim to collect sufficient relevant data to support effective evaluation and improvement planning.

PARTICIPANT FEEDBACK FORMS
Participant Feedback Forms provide Players with the opportunity to comment candidly on exercise activities and exercise design. Participant Feedback Forms should be collected at the conclusion of the Hot Wash.

AFTER-ACTION REPORT
A written AAR summarizes key information related to evaluation. The AAR primarily focuses on the analysis of core capabilities, including capability performance, strengths, and areas for improvement. AARs also include basic exercise information, including the exercise name, type of exercise, dates, location, participating organizations, mission area(s), specific threat or hazard, a brief scenario description, and the name of the exercise sponsor, and point of contact (POC).

IMPROVEMENT PLANNING
Improvement planning is the process by which the observations recorded in the AAR are resolved through the development of concrete corrective actions, which are prioritized and tracked as a part of a continuous corrective action program.

AFTER-ACTION MEETING
The After-Action Meeting (AAM) is a meeting held among decision and policymakers from the exercising organizations, as well as the Lead Evaluator and members of the Exercise Planning Team, to debrief the exercise and to review and refine the draft AAR and Improvement Plan (IP). The AAM should be an interactive session, providing attendees the opportunity to discuss and validate the observations and corrective actions in the draft AAR/IP.
AGENDA AND CHECK-IN
CLASSROOM TRAINING, DEMONSTRATION, AND ACTIVITIES (DAY 1)

CHECK-IN
Verify attendance on the roster.

SCHEDULE
7:30-8:00  Check-in
8:00      District/Host Welcome
8:10      Introductions (instructors and attendees)
8:30      Unit 1 - Course overview, Foundation history, Standard Response Protocol (SRP) Overview
9:30      Break
9:45      Unit 2 - SRP Continued
10:45     Break
11:00     Unit 3 - Reunification Incident Command
          Unit 4 - Standard Reunification Method (SRM) Part 1
12:00     Working Lunch – Crisis Communications & SRM Demonstration Set-Up
13:00     Unit 4 Continued - SRM Part 2
14:00     Break
14:15     SRM Demo/Walk-Through
15:15     Break
15:30-16:00  Tabletop Exercises (as many iterations as time allows)
16:00     Day 1 Debrief
16:30     Adjourn for the day
AGENDA AND CHECK-IN
SRM-REX FUNCTIONAL EXERCISE (DAY 2)

CHECK-IN
Verify attendance on the roster. Give every participant an “I Love U Guys” branded playing card. These cards will be used to determine roles for the first iteration of the training exercise.

SCHEDULE
7:30-8:00  Check-in
8:00       Welcome, Overview and Safety Briefing
8:30       Site set-up and role assignments
9:00       Notification and commence exercise with injects #1 and #2.
            (Switch participant roles and repeat exercise as time allows)
11:15      Mock Press Briefing (if scheduled)
11:45      Morning Lessons Learned and Debrief
12:00      Lunch
13:00      “Change layout of reunification site”
            Notification and commence exercise (new layout) with injects #1 and #2.
            (Switch participant roles and repeat exercise as time allows)
14:00      Afternoon Lessons Learned and Debrief
17:00      Demobilize and Adjourn
SAFETY BRIEFING

The Safety Officer should present the safety brief to all exercise participants (e.g. Players, Observers, Controllers, Evaluators, Media) prior to the start of exercise play. Dependent upon the exercise schedule and number of venues, it may be necessary to repeat the safety brief a number of times to ensure that all participants receive the brief. Planners should edit and/or expand the brief as appropriate for your jurisdictional specific exercise, however, it is recommended that at a minimum the following information be covered.

Participant safety takes priority over exercise events. All participants share the responsibility to ensure the safety of all involved in the exercise and have the power to stop exercise play if a safety problem is identified and cannot be immediately resolved.

is serving as the Exercise Safety Officer and can be identified by

- All Controllers will also serve as safety observers during exercise play.
- If exercise play needs to be stopped for any reason, the phrase “stop exercise” will be communicated via available communication tools. The Exercise Director and Safety Officer are responsible for determining if and when exercise play can resume and informing participants of such.
- In the event of an emergency or injury, the phrase “real-world emergency” should be used, and exercise play stopped immediately. Those observing the emergency should render aid as appropriate for their level of training and/or call 9-1-1 as warranted. A controller should be notified of the situation as soon as feasible.
- All communications should begin and end with the phrase “this is an exercise.” Given the nature of the exercise subject, it is critical to ensure that anyone who may overhear exercise-related communications does not misinterpret the communication as related to a real-world incident.
- Observers and media may not enter the areas of exercise play without prior authorization. Non-players must remain in areas designated for their use.
- Law enforcement personnel will remain armed for the duration of the exercise. There are no exercise injects for challenging the authority of law enforcement personnel. All challenges to law enforcement personnel will be considered real-world, with law enforcement personnel responding accordingly. (If this statement does not reflect your jurisdiction’s policy regarding law enforcement remaining armed during the exercise, be sure to change the statement to accurately reflect your weapons policy.)
- Be cognizant of your surroundings and vigilant to avoid slips, trips, and falls.
- Be sure to remain hydrated throughout the exercise.
- Basic personal protective equipment (PPE), i.e.: mask or respirator usage; is governed by local health department guidelines.
- If your role in the exercise requires the donning and wearing of additional personal protective equipment, all pre-donning physical assessments (e.g. vital signs) and post-doffing physical assessments and rehab must be completed per your organization’s existing policy.
- A controller will monitor the length of time that each player wears PPE and stop exercise play if a player is noted to be wearing PPE uninterrupted for longer than prescribed by policy and/or appears to be experiencing adverse effects from wearing the PPE.
SITE SET-UP AND ROLE ASSIGNMENTS

After conducting the welcome, discussing participant information, and giving the safety brief, the site set up and role assignments will start.

INSTRUCTIONS

1. Break participants into their four groups of Parent role Players, Student role Players, reunification team members, and Observers.
2. Parent and students will participate in “Operation Howdy”.
3. Following “Operation Howdy,” Parent Players will move to a staging location to await the call to pick up their student.
4. Following role assignments, Student Players will move to a staging location with the class leader to await reunification.
5. Once all roles have been assigned and the site is set, the training events will commence.
6. Exercise commences with Inject #1 (see below)
7. Reunification team members will begin to assess the reunification site and develop a site layout.
8. Observers will observe and take notes as necessary.
9. Once the reunification team has completed setup and is ready, inject #2 will notify parents of the situation.
10. Following inject #2 parents will arrive at the parking area and the reunification team will begin to process them through.

Injects

1. Announcement For Reunification Team: “Exercise, Exercise, Exercise. The school has implemented the Evacuate protocol. All students and staff are being transported to the reunification site. All reunification team members report to the reunification site immediately for assignments. This is an exercise.”
2. Parent phone call and text message: “Exercise, Exercise, Exercise. Hello, “We are implementing the Evacuate protocol. All students are being transported to our off-site reunification facility. Please travel to the location and follow the posted signs and directions of school or public safety officials. No students or staff have been injured and this evacuation is precautionary. This is an exercise.”
OPERATION HOWDY

The purpose of this event is to establish Student and Parent Players. The artifice used is Identification Cards that correspond to unique student-parent relationships. The identities on the Identification Cards correspond to respective “Classes or Classrooms.”

INSTRUCTIONS
1. Participants should be familiar with this activity from Session 1. Assign a Class Leader to identify and segregate participants into two groups using a 1, 2, 1, 2, etc. count among the players.
2. Establish a third group of “Class Leaders.” Each Identification Card page has a corresponding classroom roster.
3. The Class Leaders will separate the Parent and Student IDs from the Identification Card sheet and hand the Players their respective IDs.
4. Remember the adoption ceremony! Example: “Randy, Congratulations, you’ve adopted Clair.”
5. Ask them to exchange text message information. This is how they will communicate later in the exercise.

Note: There are 5 student/parent identities per sheet and roster. Class Leaders may be able to accommodate up to 25 total students.

CLASS LEADER INSTRUCTIONS

Perform an adoption ceremony for each student/parent pair on your roster. When complete:
- Stage to Student Assembly Area with Students
- Don Safety Vest and Green Wristband
- Take attendance using Student Roster
- Affix Green Wristbands to Students

STUDENT INSTRUCTIONS

Parent Players adopt Student {layers—exchange contact information and report to your Class Leader.

PARENT INSTRUCTIONS

Adopt your Student and await instructions for initial exercise location deployment. (Typically back to their seats in the audience.)

SRM MEDIA RELATIONS PLAYBOOK

During a reunification, the Foundation offers the following guidance for Media Relations:

- Keep Media off the property
- Establish Press Briefing Area near the property, but control sight lines
- Acknowledge the importance of Media coverage and community communication
- Provide timely and accurate information
- Don’t Name Them
- SOCO - Single Overriding Communication Objective
- Bridge - When Media questioning goes adrift

MEDIA BRIEFING SCHEDULE AND EXPECTATIONS

Below is a sample of how to conduct a media briefing if the media is going to be on-site during your exercise.

INTRODUCTION TO MEDIA PEOPLE

“Welcome to the Standard Reunification Method - Reunification Exercise (SRM-REx). One critical aspect of crisis response is accountable reunification of students with their parents or guardians in the event of a school crisis or emergency. The Standard Reunification Method provides school and district safety teams with proven methods for planning, practicing, and achieving a successful reunification.

There is mutual interest in a media story covering the school, district, and public safety efforts to prepare for a safe, accountable reunification of students with appropriate parents or guardians after an event or crisis impacts a school. Keep in mind, this is an exercise. The point of these exercises is to reveal flaws in pre-planning that can only be revealed in a practical exercise of the plan. Exercises also test the capacity of responding organizations and respective personnel.”

MEDIA GROUND RULES AND PARTICIPATION IN REUNIFICATION EXERCISE

As invited Media, there are a few expectations and ground rules. Please remain in the media staging area. If you would like to film from other locations please get permission from the PIO. Every effort will be made to provide opportunities for interviews with select facilitators, Players, and observers.

Don’t Name Them

Participation and coverage of this event is dependent on Media agreeing to not name perpetrators of active violence events in the coverage or background of this exercise. https://dontnamethem.org

Media’s Role During a Reunification

The Media has a critical role in the aftermath of an event or crisis at a school. Communities rely on timely, accurate information from the Media. There have been several instances of inaccurate reunification site reporting that led to confusion among parents. The media needs to ensure they are reporting the correct locations. Usually, this information will come from the school or district, most likely the PIO or superintendent, and not from law enforcement.

Mock Press Briefing

At 11:15 there will be an opportunity for the Media to participate in a mock press briefing. This will simulate an actual briefing. (We rarely encounter press motivation in this area but we like to leave the door open in case they choose to participate)

BACKGROUND – THE “I LOVE U GUYS” FOUNDATION

On September 27th, 2006 a gunman entered Platte Canyon High School in Bailey, Colorado, held seven girls hostage, and ultimately shot and killed Emily Keyes. During the time she was held hostage, Emily sent her parents text messages... “I love you guys” and “I love u guys, k?”

Today, The “I Love U Guys” Foundation’s programs for crisis response and post-crisis reunification are used in more than 30,000 schools, districts, departments, agencies, organizations, and communities around the world. They are created through the research-based best practices of school administrators, psychologists, public space safety experts, families, and first responders.

EXERCISE POSITION SHEET
REUNIFICATION PLAYERS

Accountant  Assembles rosters and assists in identifying missing students or staff
Checkers  Verify ID and possibly custody rights of parents or guardians. Direct parents to Reunification Area.
Class Leaders  Teachers and Staff who arrive with students remain in the Student Assembly Area to manage students. Additional people may be assigned to this task.
Communications  Facilitate radio and other communication needs.
Entertainment Director  At the elementary level, deploying a projector and screen can reduce student stress. With middle and high school students, consider turning on a television and tuning to local news if appropriate.
Facilities  Coordinate any physical plant needs.
Finance/Administration Chief  Establish and manage administrative staff.
Flow Monitor  Observe and remedy process hiccups.
Greeters  Help coordinate the parent lines. Tell parents about the process. Help verify parents without ID.
Leads  For span of control, some roles may need leads.
Liaison Officer  Communicate with Fire, Medical or Law Enforcement.
Logistics Chief  Establish and manage logistical staff.
Nutrition Services  Provide snacks and water.
Operations Chief  Establish and manage operational staff.
Parent Check-in Director  Establish and manage the check-in process.
Planning Chief  Establish and manage planning staff.
Public Information Officer  Communicate with parents and press, if appropriate. Coordinate use of mass call or text messages.
Reunification Incident Commander  Coordinate Priorities, Objectives, Strategies and Tactics for an accountable, easy reunification of students with parents.
Reunifier  Take bottom of Reunification Card to Assembly Area, locate student and bring to Reunification Area. Ask student, “Are you okay going home with this person?”
Runner  Assist Incident Command if needed.
Safety Officer  Observe site and remedy safety concerns.
School Principal  Serve as the “Face of the school” at the Reunification Area.
Scribe  Document events. A yellow pad is sufficient.
Social Media Team  Monitor social media. Tweet parents and press, if appropriate.
Student Assembly Director  Establish and manage the Student Assembly Area.
Transportation  Directs transportation needs.
Victim Advocates/Counselors  Standby unless needed.

PUBLIC SAFETY POSITIONS

The role of Public Safety professionals and volunteers is an essential aspect in both exercising and executing a successful reunification of students with their appropriate parents or guardians. Suggested participation in the exercise as follows:

LAW ENFORCEMENT
Command Staff  Visibility and participation in management of a reunification.
Sergeants  Large scale reunification will demand span of control.
Detectives (optional)  Detectives may be used to interview students or staff following an event. While we are not simulating an event it may be beneficial for detectives to be familiar with the process.
Patrol Deputies or Officers  Both small and large reunification events often have Patrol assistance.
Traffic Control  Additional officers and variable message signage may be needed for public roads near site.
School Resource Officers  Both small and large reunification events often have SRO assistance.
Dispatch  Essential communications during lead up and reunification.
Victim Services/Advocates  Support for adversely impacted parents, students or families.

EMERGENCY MANAGEMENT
Emergency Managers  Assist schools and districts in planning, exercising and executing reunification.
FIRE/EMS
Command Staff  Visibility and participation in management of a reunification.
Professional and Volunteer Firefighters  Can assist with active roles in reunification. Sometimes, simply filling some ICS roles that the school or district cannot.
Professional and Volunteer EMS  Can establish first aid during both an exercise and an event.
PUBLIC HEALTH
Hospital Emergency Planners  In the case of mass casualty events, reunification may extend to hospitals.
Mental Health  Some events may demand ongoing services or establishment of Family Assistance Centers.
DEFINITIONS AND ACRONYMS

CORE CAPABILITY DEFINITIONS:

Core capabilities are distinct critical elements necessary for an organization to achieve its mission goals.

**Situational Assessment** - Provide all decision-makers with decision-relevant information regarding the nature and extent of the hazard, any cascading effects, and the status of the response.

**Mass Care** - Provide life-sustaining and human services to the affected population, including hydration, feeding, sheltering, temporary housing, evacuee support, reunification, and distribution of emergency supplies.

**Operational Coordination** - Establish and maintain a unified and coordinated operational structure and process that appropriately integrates all critical stakeholders and supports the execution of core capabilities.

ACRONYMS

- **POC** - Point of Contact
- **REx** - Reunification Exercise
- **SOCO** - Single Overriding Communication Objective
- **SRM** - Standard Reunification Method
- **SRP** - Standard Response Method
- **TTX** - Tabletop Exercise
### ADDITIONAL RESOURCES

Below are some additional resources to help with the facilitation, planning, and lead-up to the exercise.

RECOMMENDED ATTENDEES

We have found that a minimum of 50 participants is the ideal minimum needed to effectively run the training exercises. Any less than that does not allow for all the roles to be filled (parents, students, reunification team, etc.) If you have to conduct the training with less you can, just get creative.

The maximum number of roles within the exercise is 100. We have effectively run training events with an additional 25 observers, the observers will eventually rotate into active roles. However, anything over 25 observers turns into an unruly crowd so 125 participants are the absolute max for an effective training event.

Below is our list of recommended attendees.

Note: You may not be able to accommodate all of these individuals in a single training event. However, they should become familiar with the process either through additional training with us or through information seminars provided by your organization.

SCHOOL PERSONNEL
If the training is district-wide we recommend having representation from each level i.e. elementary, middle, and high school.
- Administrators
- Facilities Personnel
- Safety & Security/SROs
- Food Services
- Administrative Staff
- Counselors
- Nurses
- Teachers

DISTRICT PERSONNEL
- Superintendent
- School Board
- Cabinet
- Information Technology
- Communications
- District Dispatch
- Mental Health
- Student Services
- Facilities
- Safety & Security
- Food Services
- Transportation
- Additional Staff

COMMUNITY RESOURCES
- Public Health (Town/City/County/Region)
- Community Mental Health
- Victim Advocates
- Youth Services (YMCA, Boys & Girls Clubs, Community Centers, etc.)
- Department of Human Services
- Hospitals
- Local Media

PUBLIC SAFETY
- Fire
- EMS
- Police
- Sheriff
- Emergency Managers (Town/City/County/Region)
- Dispatch
SAMPLE PARTICIPANT INVITATIONS

Coordinating Organizations

Dear Sir/Ma’am,

In our effort to continuously improve our safety and security protocols the District has created a Reunification Team to assist our schools when student and parent/guardian reunification is required. Our goal is to reunite students with parents/guardians as quickly and efficiently as possible. We will be conducting a training exercise to allow our team to practice the reunification process. We would like for you and your team members to be a part of the training event.

You would be helping the School District with enhancing procedures for reunification and also our coordination efforts between organizations. As you know, it is better to practice our response before an event rather than during one. We will be setting up informational and planning meetings prior to the exercise and would appreciate it if a representative from your organization could attend.

Thank you for helping to keep the students of the District safe and secure.

Respectfully,

Parent/Guardians and Students*

Dear School/District Families,

In our effort to continuously improve our safety and security protocols the District has created a Reunification Team to assist our schools when something happens at one of our buildings rendering it unsafe to stay in, and student pickup is required at a different time and/or place than normal. When that happens, a student and parent/guardian reunification is required.

Our goal is to reunite students with parents/guardians as quickly and efficiently as possible. We will be conducting a training exercise to allow our team to practice the reunification process. We would like for you and your child to be a part of the exercise.

You would be helping the School District with enhancing procedures for reunification. A parent/teacher informational meeting will be set up prior to the exercise to answer all questions. Thank you for helping to keep the students of the District safe and secure.

Respectfully,

*It is our recommendation to limit participation in the initial exercises to adults and organization staff personnel. As your team becomes more advanced and prepared you may wish to invite select student groups or parents to participate.
**EVALUATORS WORKSHEET**
This form would be used by an evaluator or outside observer

<table>
<thead>

SRM-REx CORRESPONDING TABLETOP EXERCISES

Duration
1 Hour 30 minutes (40 minutes for “Operation Build the Team,” 40 minutes for “Operation Set It Up,” and a 10 minute break between exercises)

Overview
These tabletop exercises will give participants the opportunity to talk through the reunification personnel needs and location requirements for a wide variety of situations.

Terminal Learning Objective
By the end of these tabletop exercises, participants will be able to develop reunification team rosters and site layouts for violent and non-violent events, both on and off-site.

</tbody>
</table>
FACILITATOR INSTRUCTIONS - OPERATION BUILD THE TEAM

1. We recommend you have the participants bring a list of reunification team members to the training.
2. Working as a group, instruct the participants to discuss the needed reunification personnel for each scenario.
3. If they have pre-completed forms have them discuss who each person is, their role, and why they are in that role.
4. If they do not have pre-completed forms they will develop draft rosters for their districts. (Reunification role forms are included in the references section of this packet)
5. The groups will identify who will be on the reunification team for each scenario

Scenarios and Example Facilitator Questions

A. Partial student population reunification at a school.

Those students who normally walk are kept at school and need to be reunified with a parent or guardian.

1. Who will be involved in this scenario?
2. Does the district get involved or only school officials?
3. Where will reunification take place?
4. Will it be beneficial to have a law enforcement presence at the reunification site?

B. On-site reunification of the entire student population.

Students need to be released before normal dismissal time.

1. Who will be involved in this scenario?
2. Does the district get involved?
3. Where will reunification take place?
4. Will it be beneficial to have a law enforcement presence at the reunification site?

C. Off-site reunification of the entire student population.

A full evacuation of the building has occurred and off-site reunification needs to take place.

1. Who will be involved in this scenario?
2. What is different for an off-site reunification vs. on-site?
3. Who is the point of contact for transportation?

D. Off-site reunification of special needs student population.

Off-site reunification involving special needs students

1. Do special needs students go to the same location as the rest of the student body?
2. What are the transportation requirements? Are there any different personnel requirements? Either additional or fewer?
**Exercise Name** | Operation Set It Up

As your reunification team develops you can perform more advanced training exercises.  
---|---
FACILITATOR INSTRUCTIONS - OPERATION SET IT UP

1. Have the participants work in groups to discuss potential reunification sites in their jurisdiction.
2. Participants will sketch building diagrams and talk through possible reunification setups.
3. Have groups discuss the differences, both logistically and needed completion time, between an on-site partial reunification and an off-site full reunification.
